

MX2 Battery Conditioner

Size Available: 92ML

MX2 Battery Conditioner for old & new Batteries

1L, 5L & 20L - Available Upon Request

Features and Benefits

- Increases efficiency
- Instant starting even at extreme temperatures
- Rapid power recovery & recharge
- Holds charge longer between use
- Prevents battery failure
- Up to double life expectancy

Technical Characteristics

Technical Characteristics	
Physical Description & Colour	Clear light blue liquid
Boiling Point	Approximately 100°C at 100kPa
Freezing/Melting Point	Approximately 0°C
Volatiles	Water component
Vapour Pressure	2.37 kPa at 20°C (water vapour pressure)
Vapour Density	Comparable to water vapour (water-based product)
Specific Gravity	1.200
Water Solubility	Completely soluble in water
Evaporation Rate	Comparable to water vapour (water-based product)
Autoignition Temp	Does not burn
