

# MX3 Multi Purpose Lubricant

Sizes Available: 125ML, 100G, 300G, 375G, 5L, 20L

## MX3 Multi Purpose Lubricant

750mL, 205L & 125mL Pump Pack - Available Upon Request

## Features and Benefits

- Dissolves corrosion, oxidation & salt buildup
- Lubricates & frees up parts, removing squeaks
- Protects even in extreme conditions
- Won't gum up, become sticky, dry out or wash off with water
- Non-toxic, non-corrosive, non-conductive and non-static
- No acid, silicon, kerosene, petrol fuels or dyes
- Safe for plastics, enamels, fibreglass, neoprene seals & paints

### Technical Characteristics

| Technical Characteristics     |                            |
|-------------------------------|----------------------------|
| Physical Description & Colour | Clear light tan liquid     |
| Odour                         | Mild odour                 |
| Flash Point                   | 182°C                      |
| Lower Flammability Limit      | <4% ( Bulk Only)           |
| Freezing/Melting Point        | -18°C                      |
| Vapour Pressure               | <6 kPa                     |
| Specific Gravity              | 0.840                      |
| Water Solubility              | Negligible                 |
| Particle Characteristics      | Not applicable for liquids |
