

# MX4 LANOX Lanolin Lubricant

Sizes Available: 300G, 375G, 5L, 20L

## MX4 LANOX Lanolin Heavy Duty Anti-corrosion Lanolin Based Lubricant

750mL & 205L - Available Upon Request

### Features and Benefits

- Lanolin creates a protective barrier that repels water
- For machinery, parts & equipment exposed to the elements
- Inhibits salt water, condensation, moisture & electrolysis
- Powerful formula for maximum durability & resilience
- Non-toxic, non-corrosive, non-conductive and non-static
- No acid, silicon, kerosene or petrol fuels
- Safe for plastics, enamels, fibreglass, neoprene seals & paints

#### Technical Characteristics

Technical Characteristics	
Physical Description & Colour	Tan liquid
Odour	Faint lanolin odour
Flash Point	179°C (Bulk Only)
Freezing/Melting Point	-26°C
Specific Gravity	0.8461
Water Solubility	Negligible
