

MX8 Extreme Pressure High Temp Grease

Available Sizes: 300G, 400G, 450G, 500G, 2.5KG, 20KG

MX8 Extreme Pressure High Temp Grease

180KG - Available Upon Request

Features and Benefits

- Delivers long service life to components
- Strong rust, oxidation & corrosion inhibitors
- Protects from high loading & shock loading conditions
- High resistance to water, salt, chemicals & drying out
- Smooth & tacky texture
- Won't thin out, thicken out or squeeze out over time

Technical Characteristics		
	Bulk	Aerosol
Physical Description & Colour	Smooth, tacky red grease	Coarse jet of mobile red liquid setting to grease
Odour	Negligible odour	Hydrocarbon odour
Boiling Point	-	60°C at 100kPa
Freezing/Melting Point	>250°C	-
Specific Gravity	Approx 0.95	Approx 0.95
Water Solubility	<0.1g/L	Expected to be insoluble
Temperature	-	225°C
